REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The instant application discloses a frequency shift key decoding apparatus, having a frequency divider, a signal frequency splitter, and a demodulator. A search of prior art records has failed to disclose a signal frequency splitter comprising:

“(n-1) first “n second mixers coupled to the first mixers and the frequency synthesizer to mix frequencies of the radio frequency signal and the local carrier signals to obtain n intermediate-frequency frequency-mixed signals, and n filters coupled to the second mixers to filter the n intermediate-frequency frequency-mixed signals F_{m1} to F_{mn} to obtain n intermediate-frequency signals” along with the remaining limitations as disclosed in claim 1.

“a plurality of second mixers, coupled to the first mixer to mix the frequency of the radio frequency signal with the frequencies of the first and the second local carrier signals to obtain a first and a second intermediate-frequency frequency-mixed frequency, respectively, and a plurality of filters coupled to the second mixers to filter the first and second intermediate-frequency frequency signals to obtain the first and second intermediate-frequency signals” along with the remaining limitations as disclosed in claim 3.

Nor does the prior art teach a frequency shift key decoding apparatus, comprising: “a frequency divider, to divide a frequency of a system frequency signal F_s into a plurality of differential frequency signals F_{d2} to F_{dn} ; a signal frequency splitter coupled to the frequency divider to generate n local carrier signals F_{b1} to F_{bn} according to the system frequency signal F_s and the differential frequency signals F_{d2} to F_{dn} , the signal frequency splitter receiving a radio frequency signal and mixing the radio frequency signal with the n local carrier signals F_{b1} , to F_{bn}

into mixed signals and further filtering the mixed signals to obtain n intermediate frequency signals; and a demodulator, coupled to the signal frequency splitter to decode the n intermediate-frequency signals to obtain n data; wherein n is a positive integer equal to or larger than 2" as disclosed in claim 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
